

# Free Training Resources

Brought to you by, and in partnership with [code.org](https://code.org)

## Technology & Innovation in Education (TIE)

proudly invites all full-time elementary school teachers, librarians, computer teachers, technology specialists, administrators and after school organizers to sign up for a free, workshop that will prepare them to teach computer science as an integral part of math, science and ELA. Code.org engages students in problem solving, critical thinking, analyzing and collaboration. Middle school teachers who are interested in starting a coding class are also welcome to attend. All attendees will receive a cool bag full of Code.org swag, a curriculum guide containing course lesson plans, a certificate of completion, classroom supplies for the unplugged activities and 6 CEU contact hours!

Interested in hosting a training for your district and/or surrounding schools? Contact TIE Learning Specialists & Code.org Professional Learning Partners Marcia Torgrude ([mtorgrude@tie.net](mailto:mtorgrude@tie.net), 605-716-1409) or Kim Clark ([kclark@tie.net](mailto:kclark@tie.net), 605-721-4397) for more information on hosting in your district (20 attendee minimum).
