9:00-11:45 AM

Lorna “Emmy” Her Many Horses

Developing Indigenous-Centered Curriculum: We the People Before

Art and Culture, integral to Indigenous lifeways, can be used to flip the script in classrooms across the nation. We the Peoples Before Education Fellows, a diverse group of Indigenous Educators, are developing art-and culture-centered multi-subject educational resources for classrooms, to be disseminated on a national scale. The resources center community knowledge and practice through each step of the process and present this model through and innovative Indigenous-created pedagogical framework. Attendees will learn about the curricular model and how the development process highlights and honors community knowledge, while honoring the necessary supports and needs of educators.

Lunch

1:00-3:45 PM

Native Voices
